

June 19, 2019

Attendees: Directors Bohner, Nichols, Marino, Francis; District Interim General Manager Nancy Shapiro

Meeting Called to Order: 6:09pm

Public Expression: None

OLD BUSINESS

A. Mill Valley Refuse Dual Stream Recycling Plan – **Jim Iavarone**

Presentation by Mill Valley Refuse on the pilot program and request to implement Dual Stream Recycling Plan in Strawberry. Due to the ongoing issue of recycling rates increasing and the need to decrease contamination of recycling for improved quality, dual stream appears to be the right direction. Simply increasing rates has no impact on changing contamination in recycling behavior.

Mill Valley, Corte Madera, Tiburon and Belvedere have already approved the implementation.

- Dual Stream consists of two (2) full-size bins, one for paper, one for cans. The bins are visually different than the existing bins. Items in recycling must be clean. Any food-soiled papers must go into compost.
- There are no changes to those with disabilities or low income rates.
- Senior citizens and the disabled may contact MVRS for a hardship exemption.
- Apartment complex service rates will increase the same percentage as residential.

Request to approve Dual Stream Recycling Program and Rates

Motion (Bohner / Francis) - Unanimous approval

MEETING ADJOURNED: 7:11pm
